Activity Book F (Fractions) Curriculum

Activity F-1 Etymology of Fraction
Activity F-2 Fractions Concept of the Whole
Activity F-3 Identifying fractions
Activity F-4 Identifying fractions by name ("show me")
Activity F-5 Fraction families - examples
Activity F-6 Identifying fraction families by name ("what is")
Activity F-7 Identifying Fractions from non-Fractions
Activity F-8 Identifying fractions using the body
Activity F-9 Song F-1: Fractions
Activity F-10 Dividing wholes into halves
Activity F-11 Dividing wholes into thirds
Activity F-12 Dividing wholes into fourths
Activity F-13 Dividing wholes into fifths, sixths, and sevenths
Activity F-14 Dividing wholes into eighths
Activity F-15 Dividing wholes into ninths and tenths
Activity F-16 Fractions different members of the family
Activity F-17 Identifying Fractional parts
Activity F-18 Fractions Denominator
Activity F-19 Fractions Numerator
Activity F-20 Naming fractions
Activity F-21 Writing the fraction
Activity F-22 Dozen
Activity F-23 Alternate way to write a fraction
Activity F-24 Identifying Written Fractions
Activity F-25 Fraction writing practice
Activity F-26 Drawing and dividing lines in half
Activity F-27 Fractions of liquid measure
Activity F-28 Fractions Parts
Activity F-29 Fractions: Folding paper
Activity F-30 Fraction Equivalence The Whole
Activity F-31 Representing a whole as a fraction
Activity F-32 Halves equivalence
Activity F-33 Halves equivalence practice
Activity F-34 Thirds equivalence
Activity F-35 Thirds equivalence practice
Activity F-36 Fractions Practice
Activity F-37 Fourths equivalence
Activity F-38 Fourths equivalence practice
Activity F-39 Fifths equivalence
Activity F-40 Fifths equivalence practice
Activity F-41 Sixths equivalence
Activity F-42 Equivalence Using Rectangles
Activity F-43 Sevenths equivalence

Activity F-44 Eighths equivalence
Activity F-45 Ninths equivalence
Activity F-46 Tenths equivalence
Activity F-47 Equivalence rules multiplying both sides
Activity F-48 Fraction equivalence practice
Activity F-49 Fraction Equivalence
Activity F-50 Review Test #F-1
Activity F-51 Fractions of an hour
Activity F-52 Fraction addition same denominator (halves)
Activity F-53 Fraction addition same denominator (thirds)
Activity F-54 Fraction addition same denominator (fourths)
Activity F-55 Fraction addition same denominator (fifths)
Activity F-56 Fraction addition same denominator (sixths)
Activity F-57 Fraction addition same denominator (sevenths)
Activity F-58 Fraction addition same denominator (eighths)
Activity F-59 Fraction addition same denominator (ninths)
Activity F-60 Fraction addition same denominator (tenths)
Activity F-61 Fraction Addition - Shorthand
Activity F-62 Fraction subtraction (tenths)
Activity F-63 Fraction subtraction practice (tenths)
Activity F-64 Fraction subtraction (ninths)
Activity F-65 Fraction subtraction practice (ninths)
Activity F-66 Fraction subtraction (eighths)
Activity F-67 Fraction subtraction practice (eighths)
Activity F-68 Fraction subtraction (sevenths)
Activity F-69 Fraction subtraction practice (sevenths)
Activity F-70 Fraction subtraction (sixths)
Activity F-71 Fraction subtraction practice (sixths)
Activity F-72 Fraction subtraction (fifths)
Activity F-73 Fraction subtraction practice (fifths)
Activity F-74 Fraction subtraction (fourths)
Activity F-75 Fraction subtraction practice (fourths)
Activity F-76 Fraction subtraction (thirds)
Activity F-77 Fraction subtraction practice (thirds)
Activity F-78 Fraction subtraction (halves)
Activity F-79 Fraction subtraction practice (halves)
Activity F-80 Fraction Equivalence
Activity F-81 Review Test #F-2
Activity F-82 Fraction multiplication by whole numbers (ninths)
Activity F-83 Fraction multiplication practice (ninths)
Activity F-84 Fraction multiplication by whole numbers (eighths)
Activity F-85 Fraction multiplication practice (eighths)
Activity F-86 Fraction multiplication by whole numbers (sevenths)

Activity F-87 Fraction multiplication practice (sevenths)
Activity F-88 Fraction multiplication by whole numbers (sixths)
Activity F-89 Fraction multiplication practice (sixths)
Activity F-90 Fraction multiplication by whole numbers (fifths)
Activity F-91 Fraction multiplication practice (fifths)
Activity F-92 Fraction multiplication by whole numbers (fourths)
Activity F-93 Fraction multiplication practice (fourths)
Activity F-94 Fraction multiplication by whole numbers (thirds)
Activity F-95 Fraction multiplication practice (thirds)
Activity F-96 Fraction multiplication by whole numbers (halves)
Activity F-97 Fraction multiplication practice (Halves)
Activity F-98 Fraction Multiplication using Units
Activity F-99 Fraction equations with more than two fractions
Activity F-100 Fractions of an hour
Activity F-101 Addition of fractions to more than one
Activity F-102: Introducing abstraction to adding fractions
Activity F-103: Introducing abstraction to subtracting fractions
Activity F-104 Fraction multiplication by whole numbers (tenths)
Activity F-105 Fraction multiplication practice (tenths)
Activity F-106 Fraction multiplication and reduction
Activity F-107 Fraction reduction practice
Activity F-108 Equivalence rules dividing both Numerator and Denominator
Activity F-109 Reducing fractions
Activity F-110 Fraction multiplication by whole numbers; product greater than 1
Activity F-111 Improper Fractions
Activity F-112 Replacing integers with whole fractions
Activity F-113 Fraction Identification
Activity F-114 Fraction multiplication numerator rule
Activity F-115 Fraction multiplication commutativity
Activity F-116 Mental arithmetic: length, fractions
Activity F-117 Fraction arithmetic in the Kitchen
Activity F-118 Inversion
Activity F-119 From Fractions TO Number Lines
Activity F-120 Denominator of 24
Activity F-121 From Number Lines to Fractions
Activity F-122 Proper and Improper Fractions
Activity F-123 Converting Fractions into Numbers
Activity F-124 Converting Fractions into Numbers
Activity F-125 Mental Calculation
Activity F-126 Fraction Equivalence
Activity F-127 Fractions in Geometry
Activity F-128 Fractions Multiplication
Activity F-129 Fractions Multiplication

Activity Book F (Fractions) Curriculum

Activity F-130 Fraction Sequences
Activity F-131 Fraction Problems
Activity F-132 Fraction Strips
Activity F-133 Fraction Verbal Problem
Activity F-134 Review Test #F-3
Activity F-135 Number line Fractions
Activity F-136 Common Denominators
Activity F-137 Adding Fractions with Different Denominators
Activity F-138 Song F-2: Least Common Multiple
Activity F-139 Least Common Denominator
Activity F-140 Least Common Denominator using Prime Factors
Activity F-141 Pie charts
Activity F-142 Verbal problem
Activity F-143 Verbal problems using Measures
Activity F-144 Decimal Measures
Activity F-145 Inversions
Activity F-146 Fraction Sequences
Activity F-147 Fraction Arithmetic using the Number Line
Activity F-148 Rule
Activity F-149 Number Line and Inequalities
Activity F-150 Rule
Activity F-151 Fractions Rule
Activity F-152 Word Problems
Activity F-153 Negative Fractions
Activity F-154 Converting Decimals to Fractions
Activity F-155 Multiplying Fractions - Concrete
Activity F-156 Multiplying Fractions - Abstract
Activity F-157 Fraction arithmetic
Activity F-158 Inverse Numbers
Activity F-159 Fraction Multiplication - Practice
Activity F-160 Dividing Fractions - Introduction
Activity F-161 Money and Fractions
Activity F-162 Money and Fractions
Activity F-163 Inverse of an inverse
Activity F-164 Inverse of an Inverse - Abstract
Activity F-165 Converting Fractions to Percentages
Activity F-166 Converting Percentages to Fractions
Activity F-167 Simplifying Fractions When Multiplying
Activity F-168 Review test #F-4
